DETAILED ACTION

Response to Amendment

1. Receipt is acknowledged of the After Final Amendment filed May 11, 2006.

Claim Objections

2. Claims 62 and 63 are objected to because of the following informalities: claim 62 is a dependent claim of itself and claim 63 depends from claim 62. Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-10, 13-16, 18-25, 27-31, 34-42, 44-46, 48-51, 53-58, 60-63 and 65 are allowable.

The following is a statement of reasons for the indication of allowable subject matter: none of the cited prior art of the record discloses, teaches, or fairly suggests the claimed disposal and provisioning system comprising, among other things, a set of instructions for a user to control replacement of a discarded item. The cited prior art of the references also silent about a database, storing user specified sample preference and the user's response to a particular sample and non-sample item, when the sample item is discarded in a networked wasted receptacle.

Conclusion

4. This application is in condition for allowance except for the following formal matters:

Improper dependency found in claims 62 and 63.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.
